### PRODUCT CODES

- › Satin stainless steel version of this product **BC2001**
- › White metal version of this product **BC2001W**

**PLEASE NOTE:** We strongly recommend that the surfaces beneath and to either side of this dryer allow regular cleaning (such as smooth cleanable paint, tile, Perspex, stainless steel etc) to prevent staining from the water blown from users hands. New generation high speed dryers such as this are designed to blow the water off the hands so consideration like this needs to be given to deal with the water deposits.
