

BC194 / BC195 / BC630 / AND ALL PRESTIGE MANUAL COUNTER AND PANEL MOUNTED SOAP DISPENSERS

TANK POSITIONING GUIDE

› IMPORTANT NOTICE – READ BEFORE INSTALLING

- › ALWAYS mount the soap tank feeding the dispenser(s) BELOW the level of the dispensers

- › NEVER mount the soap tank feeding the dispenser(s) ABOVE the level of the dispensers

Also please note:

- › The soap type and brand used in these dispensers should not be altered throughout the life of the dispenser as mixing soaps can affect their chemical characteristics and cause them to become more aggressive. If another soap type or brand is needed to be used then the previous type must be flushed through thoroughly and cleaned from the soap dispenser(s) and system prior to its use.
